1. The following is an examiner's statement of reasons for allowance:
 - a. Applicants show a microcapsule formulation comprised of coated antibiotic microcapsules wherein the coating provides taste masking when the formulation is reconstituted and ingested. The prior art shows coated granules. Shimizu et al considered the closest prior art of record shows orally disintegrable tablets comprised of granules that are coated with a methacrylate copolymer. The prior art does not show nor fairly suggest applicants' taste masked formulation comprised of a drug selected from a naphthyridone-carboxylic acid antibiotic or a quinolone-carboxylic acid antibiotic microcapsule that is further coated with a weakly acidic methacrylic acid-ethyl acrylate copolymer.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Claims 3-14 are allowed.

Claims 1 and 2 have been canceled.
